**Subject: Application for Final Year Internship in Digital Health**

Dear Sir/Madam,

I am currently pursuing a Master's degree in Digital Health Engineering at ENSAM Casablanca and I am seeking a six-month internship from January, to June 2025

Passionate about software programming and eager to contribute to innovative projects in health technology, I am particularly interested in applying advanced technologies such as programming, artificial intelligence, image acquisition and processing, and IoT in the field of human health. Your internship opportunities are especially appealing as they offer an ideal environment for me to enhance my skills, broaden my experience, and deepen my knowledge, paving the way for my future professional career.

My academic background has allowed me to gain solid experience in software programming, while my Master's program has broadened my expertise in various fields, such as digital health, artificial intelligence, image processing, data processing, the Internet of Things (IoT), augmented reality, and 3D modeling.

Diligent and versatile, I would be delighted to apply the skills I have acquired throughout my academic journey, along with my enthusiasm, to collaborate with your team.

Thank you for considering my application. I am available for an interview to further discuss my professional project and motivations.

Moubachir Chaimaa
